The American Institute of Physics, in conjunction with The Dow Chemical Company, invite you to attend

“Careers in Rheology”

This forum will feature a panel of scientists representing industry, US national labs and a university. Panelists will each be giving a brief talk on their experiences using rheology in their sector, the trajectories of their professional development, and the role that rheology plays in their company’s products and processes. Students and postdocs are especially encouraged to attend.

A reception will be held after the panel discussion.

**Event Info:**
Sunday October 8th, 2017, 4 – 6 PM
Denver, CO
In the scope of the Society of Rheology 89th Annual Meeting
Embassy Suite, Crystal Ballroom C

**Chairs:**
Aslin Izmitli, Research Scientist, Formulation Science, Core R&D, The Dow Chemical Company
Catherine O’Riordan, Interim co-CEO and Chief Operating Officer, American Institute of Physics
Maryam Sepehr, Senior Research Scientist, Viscosity Index Improvers, Chevron Oronite Company

**Moderator:**
Gerald ‘Gerry’ Fuller, Fletcher Jones II Professor of Chemical Engineering, Stanford University

**Speakers:**
Tirtha Chatterjee, Research Scientist, Formulation Science, Core R&D, The Dow Chemical Company
Necla Eren, Principal Engineer, Global Product Development, Abbott Nutrition, Abbott Laboratories
Jeffrey Martin, Senior Scientist, Product Robustness, Johnson & Johnson Consumer Incorporation
Nicholas Wyatt, Principal Materials Scientist, Organic Materials Science Department, Sandia National Laboratories
Roseanna Zia, Assistant Professor of Chemical Engineering, Stanford University
