The *Journal of Rheology*, published for The Society of Rheology through the American Institute of Physics (AIP), offers *Author Select*[®], an open access initiative. With *Author Select*, authors have the option to pay a \$2500 fee to support publication costs and to provide free online access to the full text of a published article, in perpetuity, to any online user, independent of any subscriptions to the journal. To provide such open access to an article, please return this form to AIP either before or with the author's proof corrections. **Open access to the article can be ensured only if payment in full (or a duly authorized institutional purchase order) is received at AIP before author's proof corrections are completed.**

NOTE: An author's choice to participate in *Author Select* has no impact on any aspect of the peer review process or on the Editor's ultimate decision regarding publication. If an author chooses open access, but The Society of Rheology does not receive the \$2500 payment (or purchase order) before completion of author corrections, the article will be published conventionally, that is, without open access. Payment of the *Author Select* fee does not cover other publication charges, such as charges for reprints and color printing; authors will be invoiced separately for those items.

I AGREE to pay JOR's *Author Select* fee of \$2500
